Office Action Summary	Application No. 10/549,957	Applicant(s) LARCHER ET AL.	
	Examiner Cam N. Nguyen	Art Unit 1793	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10/23/08 (an election).
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Response to Election/Restrictions

1. Applicant's election with traverse of Group I, claims 22-31 & 41, in the reply filed on 10/23/08 is acknowledged. The traversal is on the ground(s) that “Groups I-III are closely related and that a proper search of any of the claims should, by necessity, require a proper search of the others, etc.” This is not found persuasive because for the reasons as indicated in the restriction requirement. Further, if the elected product claims are found allowable, the process claims will automatically rejoined in accordance with rule as set forth in the MPEP. There would be no point for Examiner to search and examine the process claims at the same time since their patentability is determined by the product claims. Thus, for purpose of search and examination on the merits, the claims must be restricted.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 32-40 & 42 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention(s), there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 10/23/08.

Claim Objections

3. Claims 26 & 27 are objected to because of the following informalities:

A. In claim 26, line 2, “optionally” should be changed to --preferably--.

Art Unit: 1793

B. In claim 27, line 2, "optionally" should be changed to --preferably--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112 (Second Paragraph)

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 28-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 28-30 appear to be broader than the scope of the claim 22 with respect to the temperature. Claim 22 recites a maximum reducibility temperature of at most 500°C, whereas claims 28-30 recite a calcination temperature of 900°C and 1000°C, which is outside of the above temperature range. Thus, render the claim vague and indefinite.

Claim Rejections - 35 USC § 102(b)

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 22-31 & 41 are rejected under 35 U.S.C. 102(b) as being anticipated by Aubert et al., hereinafter referred to as "Aubert '306", (US Pat. 6,214,306 B1).

Art Unit: 1793

Aubert '306 appears to teach the claimed composition having the claimed properties, including temperature, surface area, and zirconium oxide content (see col. 10, claim 1- col. 16, claim 84).

There is no patentable distinction seen between the claimed composition and that disclosed by the reference. Thus, the claims are anticipated by Aubert '306.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. All references are cited for related art. See PTO-892 Form prepared.

Conclusion

7. Claims 22-42 are pending. Claims 22-31 & 41 are rejected. Claims 32-40 & 42 are withdrawn due to nonelected (distinct) invention(s). No claims are allowed.
